Schedule of the Championships

See schedule for the entire 20. Riesa Dance sport Festival published in the IDO-website.

All times are according to the number of enrollments and subject to change. By our experience the “official” time schedule will be published about 3-2 weeks prior to the event.

It might be possible that some heats/rounds will start later than published in the tentative schedule according different numbers of enrolments. Most of the 3.300 dancers from the 30 nations have to book their travel early in advance. This is why there will no heat/round be one or two days earlier than published in the tentative schedule.

Preparation / be ready

According the experience of many years we have made the time schedule of the events. BUT due to the running of this big event it may happen that the time schedule has to be adjusted during the days. We ask all dancers and coaches that dancers must be ready to dance at least 90 minutes prior to the published start of the round – respectively inform themselves about the planned start of the dancer.

All information will be published backstage near the stage entrance and announced from the stage. Everybody please inform yourself during the day(s).

General Information

Information about the next round

After each round the judges will hand their sheets to the scruteneers to count the marks for the competitors to reach the next round. We will publish the results for the next round as soon as possible relating to the running of the event. Please do not leave the hall before this announcement – as there might be an extra unforeseen round (re-dance), which you might miss by leaving too early.

Showtitle

→ According IDO dance and dance sport rules there is a FORTH criterion for SHOWDANCE since 2006.

T – C – I – S → Technique – Composition – Image – **SHOW**.

Therefore each performance will be published and announced with the Show title. Please type in this title when you enrol your dancers into DIES. **Latest tell our staff when checking in.** If this title is not visible or announced judges may deduct points because of the missing title.

The essence of this paragraph is that because this is a Show Dance Championship, all entries should have a story, theme, concept, idea or message and that the title of the piece should reflect this story, theme, concept, idea or message and if the piece does not have a title, it may be panellized.

Be advised to use a title which might be understood by the judges - internationally

Music

Our professional music equipment covers a huge hall with many spectators. Therefore the sound must be professionally.

Please use only CDs. We suggest you will be keeping at least one backup CD per show at your or your team captain's hand, in case the main CD fails to work.

Please understand that the CD should only contain this one title and should be titled easily to be read with name and title of the show.

According to our experience there might be mistakes if there is more than one title on the CD.

Please avoid these mistakes for the sake of your dancer!

→ Use CDs with one title per SHOW labelled – **NO tapes, MD or MP3 etc.**

Dancers Forum

IDO is planning to have a Dancers´ and Teacher's Forum during both events - date and time will be given together with Time schedule by the IDO Vice president Hana Svehlova

Lost and Found

Please hand over found things to the „IDO Check In“. Please ask for lost things there as well.

Scruteneer's office

The Scruteneers do a great job to count all thousands of crosses and marks. Therefore they are working in a different room to have a quite and undisturbed place. No dancer, coach, choreographer, parent, visitor or judge may come into the scruteneer's room at any time.

General Information

Final result list

All final results will be published as soon as possible, latest the following day of the prize giving ceremony under www.ido-dance.com → competitions → results 2016 → scroll to “Riesa” and click on “Results”.

Unfortunately we cannot publish qualification and ranking before the prize giving ceremony.

Judges and Scruteneering tables

Sunday after the Show dance and the tap dance competitions we will send all scruteneering tables and result lists to the participating IDO federations for information.

The judging and scruteneering tables will not be published in the hall.

Selection of IDO judges – Appointment of the countries

There are 7 to 9 Judges at an IDO world championship.

Basically each IDO country may send judges to a competition. Very often federations will send more than one judge to share the judging seat and to avoid too long judging for one person, sometimes from the morning to the night and without breaks.

The enrolled judges will be displayed to the several competitions by the chairman according a key.

A judge is not allowed to judge her/his own students or a member of his family or household. To avoid conflicts the judges inform the chairperson before which categories they can/cannot judge.

Example:

It might be possible a county is sending 7 judges – a second country just only 1 judge.

Those 7 judges will be distributed to the 16 to 20 competitions to about 75 % of all competitions. Following this example 7 judges will judge only 1-2 competitions each. (16 competitions * 75% = 12 judges seats)

The 1 judge also judges about 75 % of the competitions. In this case she/he has to judge about 12 competitions and will not have many breaks to refresh.

To avoid this unfair situation many countries send more than one judge.

How countries are appointed to send official judges

Seats 1 – 3 will be the countries with the best results in the competitions during the last 12 months. These three countries will be set and may send more than one judge.

Seat 4 the organizing country has a seat – and may also send more than 1 judge

Seats 5 - 7 will be countries appointed by the IDO presidium before each season by proposal of the IDO Adjudication Committee

It is planned to have 9 Judges for the Junior’s und Adult’s Formations and Productions.

Voluntary Judges are judges, who often travel with own dancers to an IDO event. But they are welcome to judge those competitions where their own students are not competing

Voluntary judges should only judge one competition or slightly more to allow other judges the possibility to refresh.

General Information

How to become an IDO judge?

All IDO judges must be national specialists in their fields. They are teachers, coaches or choreographers and/or former dancers. This has to be proven towards the IDO through the national federation by a personal vita.

The national federations train their judges technically. This ensures all IDO judges are specialists in their dance disciplines.

IDO Judges Seminars and Exams

The national Federations enroll their national judges for the international IDO judges' seminars and exams, which are published in the IDO-website and will be held from time to time during the year mostly in co-operation with IDO championships.

All candidates attending the IDO seminars and exams must have a national judges' license. They must attend the seminar and pass the written and oral exams in those disciplines they want to judge.

Mock Judging

After having passed the exams – and this has been proven not to be easy – they have to mock-judge some competitions at an IDO Championship later on.

After having finished their mock-judging a personal interview follows with the chairperson of judges. During this interview the candidate must explain why she/he has judges in this way. If the explanation is reasonable and fair the IDO judge's license will be given.

IDO adjudicators and the IDO Website

All IDO licensed Judges are listed in the IDO website under their country's name.

It is very important for the IDO that all IDO judges are specialists in the discipline(s) they are judging and have been licensed by their national and the international federations.

IDO Judges Meeting

Before every IDO-Competition, there is an official Judges Meeting. All judges of this competition must attend at this meeting!

The Chairperson explains the rules and judge's criteria – maybe for instance there are new rules....

Afterwards follows an exchange of opinions and discussion – because many countries have different ideas and opinions. This is obvious at the open judging from time to time.

Basically this is not a problem because the IDO – as many other dance sport federations - uses the international SKATING System, which – following democratic principles – defines the ranking and result lists by the majority principle.

Photos and Video

Unfortunately it happens time and again that pictures of the participants of IDO-Events appear on unauthorized commercial websites.

For that reason we would kindly advise you that taking pictures at IDO events is permitted to the following person only:

- Journalists and reporters who have been accredited beforehand (press cards must be presented Upon request) – photos are only possible from the left side of the stage (seen from the audience)
- The official photographer authorized by the organizer who has the right to use the space in front of the audience before the center access.
- Parents taking pictures of their children (this must be proofed upon request)

In the interest of the event being conducted in an orderly way, we reserve the right to revoke these permissions.

Personal videos are not allowed at any time in the SACHSENarena!

Our partner, Mr. Detlef Kruse from "Videoforum Kruse" will film the whole event and produces most beautiful DVDs.
